The Department of Chemical Engineering at the University of Virginia seeks outstanding candidates for a position at the Assistant, Associate or Full Professor level with the rank being commensurate with experience level.

Applicants should have a Ph.D. in Chemical Engineering or a related field, a record of excellence in research, and a commitment to teaching at the undergraduate and graduate levels.

Interested parties should submit a curriculum vitae, a statement of teaching and research goals, and the names of three references to Chair, Faculty Search Committee, Dept. of Chemical Engineering, University of Virginia, P.O. Box 400741, Charlottesville, VA 22904-4741 (e-mail: chesearch@virginia.edu).

The search will remain open until the position is filled. Female and minority applicants are especially encouraged to apply. The University of Virginia is an Equal Opportunity/Affirmative Action employer.

The Department of Chemical Engineering, founded in 1908, has 11 faculty members, approximately 40 undergraduate students in each year, and 50 graduate students, over 90% of whom are Ph.D. students. The Department occupies a modern laboratory and office building as well as space in the main UVa Engineering building. Additional teaching and research facilities are being constructed in a multidisciplinary center.

The Department's research currently concentrates on reaction engineering, catalysis, separations science and technology, biochemical engineering, bioremediation, environmentally benign processing, molecular simulation and polymer solution rheology. See “www.che.virginia.edu”.

The UVa School of Engineering and Applied Science has 9 departments with 1800 undergraduate students and 600 graduate students. The University, founded by Thomas Jefferson, is considered one of the finest public universities in the United States.
